As an experienced Full Stack Developer, I teach and mentor students at Red and White Multimedia Education in mastering both front-end and back-end development. With a strong foundation in web technologies and a passion for teaching, I help learners build comprehensive, scalable applications.

Key Areas of Expertise:

Front-End Development: HTML5, CSS3, Bootstrap, jQuery, JavaScript, React

Back-End Development: Node.js, Express, C# , C++

Database Management: MongoDB

Version Control: Git, GitHub

I am committed to empowering students with hands-on experience and real-world coding skills that enable them to build dynamic, full-featured web applications. My goal is to bridge the gap between theory and practical application, preparing students for successful careers in the tech industry.
